MANAGING DIRECTORS' REPORT

EM.TV FINANCE B.V., AMSTERDAM

MANAGING DIRECTOR'S REPORT

The management herewith submits the audited Financial Statements for the year ended December 31, 2009.

Company profile

The main activity of EM.TV Finance B.V., Amsterdam, (the "Company") is to provide financing services to the parent company.

On May 8, 2006, the Company issued a convertible bond on the capital market for an amount of € 87,750,000. The Bond bears a fixed interest of 5.25 % per annum and will be redeemed at its principal amount at May 8, 2013. The bondholders have the right to request an earlier repayment on May 8, 2011. Given the current market situation and the share price of the underlying Constantin Medien shares an earlier repayment is currently more likely than the later repayment.

Organisation

The Company has its seat in Amsterdam and is managed by two directors. The Dutch managing director has been granted a power of attorney enabling him to represent the company singly in transactions regarding day to day management.

Financial risk management

As the proceeds of the convertible loan are one on one lent to Constantin Medien AG (the "parent company", formerly known as EM.Sport Media AG), the ability of the company to meet its obligations under the convertible bond depends upon the payment of the principal and the interest due from the parent company. Therefore liquidity risk is limited to the equity of the company and depends on the ability of the parent company to meet its obligations under the loan agreement.

The interest rate on the loan to the parent company is 0.2835% (2008: 0.2835%) higher than the interest rate on the convertible loan. We furthermore refer to the paragraph financial instruments as specified in the notes to the balance sheet as at December 31, 2009 on page 13 of this report.

Result

During the year under review, the Company recorded a net profit of € 39,258 (2008: profit of € 23,721) which is set out in detail in the attached Profit and Loss account.

Subsequent events

No material subsequent events, affecting these financial statements, have occurred to date.

EM.TV FINANCE B.V., AMSTERDAM**MANAGING DIRECTOR'S REPORT**Future developments

The company intends to continue its operations as an inter group finance company for the foreseeable future. No substantial changes in the field of capital expenditures and financing are foreseen.

These financial statements are prepared in accordance with statutory provisions of Part 9, Book 2 of the Netherlands Civil Code and the firm pronouncements in the Guidelines for the Annual Reporting in the Netherlands as issued by the Dutch Accounting Standards Board.

Audit Committee

Based on Article 21a of WTA and article 41 sub EU Directive no.2006/43/EG the Company has opted for the possibility to not have its own audit committee and asked the existing audit committee of the parent company to fulfil this role also for EM.TV Finance B.V.

Directors' statement

To the best of our knowledge and in accordance with the applicable reporting principles and disclosure requirements for annual reports of listed companies, these financial statements give a true and fair view of the assets, liabilities, financial position, profit and cash flow of the Company as at December 31, 2009.

Moreover, the Managing Directors' report includes a fair review of the developments and performance of the business and the position of the Company, together with a description of the principal opportunities and risks associated with the expected development of the Company.

I.II Objectives of the company

According to article 3 of the Articles of Association of the company, the objects of the company are:

- to borrow, to lend and to raise funds, including the issue of bonds, promissory notes or other securities or evidence of indebtedness as well as to enter into agreements in connection with the aforementioned;
- to render guarantees, to bind the company and to pledge its assets for obligations of the companies and enterprises with which it forms a group and on behalf of third parties;
- to finance businesses and companies; and
- to trade in currencies, securities and items of property in general, as well as everything pertaining the foregoing, relating thereto or conducive thereto, all in the widest sense of the word.

II Principles for the valuation of assets and liabilities**II.I General**

The financial statements are prepared in accordance with the statutory provisions of Part 9, Book 2, of the Netherlands Civil Code and the firm pronouncements in the Guidelines for Annual Reporting in the Netherlands as issued by the Dutch Accounting Standards Board.

The principles are unchanged compared to the financial statements 2008 of the company.

Insofar as not stated otherwise, assets and liabilities are shown at nominal value.

The income and expenses are accounted for in the period to which they relate.

II.II Translation of foreign currencies

The reporting currency in the financial statements of EM.TV Finance B.V. is the Euro (EUR; €).

Assets and liabilities expressed in foreign currencies have been translated into Euros at the exchange rate prevailing at the balance sheet date. Foreign currency transactions have been converted at exchange rates approximating those at the time of the transactions. The resulting exchange differences have been recognised in the profit and loss account. During the business year there have been no transactions in foreign currencies.

D - Notes to the balance sheet and profit and loss account**II.III Notes to the cash flow statement**

The cash flow statement has been prepared applying the direct method. The cash and cash equivalents in the cash flow statement comprise the balance sheet item cash at banks.

Receipts and payments of interest and corporate income tax are included in the cash flow from operating activities. Dividends paid have been included in the cash flow from financing activities.

II.IV Financial instruments

Management has the option to apply fair value accounting on financial instruments or to perform certain disclosures on the fair value of financial instruments. The management board has chosen not to apply fair value accounting on financial instruments. Therefore, the applicable fair value disclosures have been included in the notes to the balance sheet and profit and loss account.

II.V Receivables and other assets

If there are doubts concerning the collectibility of outstanding receivables, the receivables in question are stated at their lower realisable value.

III Principles for the determination of the result**III.I Revenue accounting**

The income has been calculated by reducing the revenues with the operational charges over the same reporting period of time.

Revenues and charges relating to the financial year have been included in the annual accounts, irrespective of whether they have led to receipts or expenditure in that year.

Profits are only shown to the extent they have been realised on the balance sheet date.

Losses and risks originating prior to the end of the reporting period are taken into account if they became known prior to the drawing up of the financial statements.

The principles are unchanged compared to the company's financial statements 2008.

III.II Taxation on result

Taxes are calculated on the result, taking into account the tax facilities.

D - Notes to the balance sheet and profit and loss account**IV Financial instruments****IV.I Market risk***Currency risk*

A currency risk exists in particular wherever there are claims or liabilities in a currency other than that applied in financial statements. Foreign exchange fluctuations may change the value in the Euro currency used in financial statements. In view of the fact that the development of other currencies in terms of the Euro can not be predicted, additional earnings effects may also arise from the aforesaid in the future. During the business year there have been no transactions in foreign currencies.

Price risk

The Company's price risk is limited as the convertible loan issued by the Company has been one on one used to finance the loan to group companies. As a result a natural hedge has been obtained.

IV.II Interest rate risk

The Company's exposure to interest rate risk on interest-bearing receivables (mainly taken up in financial fixed assets and receivables) and interest-bearing long-term and current liabilities is limited as the convertible loan issued has a fixed interest rate, which loan has been one on one used for financing the loan to group companies. It has been agreed that the interest rate cannot be fixed below the rate of the convertible bonds. As a result a natural hedge has been obtained.

IV.III Credit risk

Constantin Medien AG issued a guarantee to the bond creditors both for the relevant interest payments and also for the ultimate repayment. In the event of a conversion taking place, the repayment claim in connection with the loan lapses for the amount of the bonds converted into shares of Constantin Medien AG.

We further refer to the paragraph financial instruments as specified in the notes to the balance sheet as at December 31, 2009 on page 13 of this report.

EM.TV FINANCE B.V., AMSTERDAM**FINANCIAL STATEMENTS****E - Notes to the balance sheet as at December 31, 2009****LONG TERM LIABILITIES****8. Convertible loan**

EM.TV Finance B.V. issued a 5.25% convertible bond 2006/2013 with a total nominal value of € 87,750,000 by May 8, 2006. Originally, the convertible bond 2006/2013 guaranteed a conversion right on a total of 15,000,000 bearer ordinary shares in Constantin Medien AG with a nominal value of € 1.00 per share. The issue price which is equivalent to the nominal amount and the initial conversion price amounts to € 5.85 for each convertible bond. The interest rate is equivalent to 5.25% p.a.

The issue proceeds from the convertible bond were used by EM.TV Finance B.V. to make a long-term loan available to Constantin Medien AG. Constantin Medien AG issued a guarantee to the bond creditors both for the relevant interest payments and also for the ultimate repayment. In the event of a conversion taking place, the repayment claim in connection with the loan lapsed for the amount of the bonds converted into shares of Constantin Medien AG. The bondholders have the right to request an earlier repayment on May 8, 2011. Given the current stock market situation and the share price of the underlying Constantin Medien AG share an earlier repayment is currently more likely than the later repayment.

In 2009 no convertible rights were executed. As of December 31, 2009, a total number of 14,965,483 convertible bonds were outstanding, of which five million were bought back by the parent company. As made public at June 26th 2009, starting April 24th 2009 each bond entitles the holder to convert the bond in 1.0123 bearer ordinary shares (before that it was 1 share per bond) in Constantin Medien AG.

The following securities were granted to the creditors of the convertible bond:

- The assignment of all claims by EM.TV Finance B.V. in connection with the loan to Constantin Medien AG;
